PROFESSIONAL SUMMARY

Detail-oriented Data Analyst with a strong academic foundation in computer applications and data-centric problem solving. Skilled in data collection, cleaning, analysis, and visualization using Python, SQL, and Power BI. Experienced in applying analytical techniques to extract actionable insights from structured datasets and support data-driven decision-making. Passionate about building a career in data analytics while continuously adopting modern tools and methodologies.

CORE SKILLS

Data Analytics & BI Tools: Power BI (Data Modeling, DAX, Dashboards), SQL, Microsoft Excel

Programming & Libraries: Python, NumPy, Pandas, Matplotlib, Seaborn

Developer & Analysis Tools: VS Code, SQLite, Canva

EXPERIENCE

Data Analytics Intern (Training Program) | Thinknext Technologies Pvt. Ltd. | Mohali, Punjab | Jun 2025 – Jul 2025

- Completed a 6-week structured training program in Data Analytics with hands-on practice in Power BI, SQL, and Python.
- Built interactive Power BI dashboards using cleaned datasets, applying DAX formulas and data modeling concepts.
- Executed SQL queries for data extraction, filtering, aggregation, and reporting across relational databases.
- Conducted Exploratory Data Analysis (EDA) in Python using Pandas, NumPy, Matplotlib, and Seaborn to identify patterns and trends.

PROJECTS

Vendor Performance Analysis Dashboard | SQL · SQLite · Power BI · Data Modeling

Apr 2026

- Developed a data-driven solution to evaluate vendor performance using datasets covering purchases, sales, and invoices.
- Calculated key metrics including total purchase value, sales revenue, freight cost, and vendor contribution percentages.
- Built insights to support procurement decisions by comparing vendor costs with revenue generation for strategic planning.
- Identified cost-efficient vendors and recommended improved purchasing strategies to enhance overall profitability.

Crimes Against Women Analysis Dashboard | Power BI · Microsoft Excel

Jul 2025

- Developed an interactive Power BI dashboard to analyze crimes against women in India across trends, crime types, and regions.
- Created KPI cards displaying over 105,000 total reported cases, crime rate metrics, and year-over-year trend analysis.
- Performed year-wise and state-wise analysis to identify crime patterns and highlight high-risk geographic regions.
- Visualized crime type distribution (rape, domestic violence, kidnapping) with interactive filters for granular insights.

EDUCATION

Bachelor of Computer Application (BCA) | IK Gujral Punjab Technical University | Kapurthala, India | Aug 2023 – May 2026 (Expected)

Pre-University Education (Grade: A) | Baba Banda Singh Bahadur Engineering College | Fatehgarh Sahib, India | Aug 2023

CERTIFICATIONS

Data Analytics Training Certificate — Thinknext Technologies Pvt. Ltd., Mohali, Punjab (Jun 2025 – Jul 2025)

ACHIEVEMENTS & ADDITIONAL INFORMATION

- Strong proficiency in data storytelling and translating complex datasets into clear visual narratives for non-technical stakeholders.
- Consistently applied agile learning practices to independently complete end-to-end analytics projects from data ingestion to insight delivery.
- Languages: Hindi (Native), English (Professional Working Proficiency)
- Open to internship and entry-level Data Analyst opportunities across India.
